Abstract
IQBAL is a great poet and thinker. IQBAL’s message with its universal and extensive themes is beyond the limits of color, race and religion. His work has appealed to the worldwide guidance. IQBAL's universal constitution is the motto of all human beings regardless of color and religion. IQBAL’s motto is to highlight the “Ideology of Islam ever, his thought is only restricted to East in How,” its real sense but also in global world. To achieve this objective, IQBAL considers it important to have dialogue & coexistence between East and West. He also considers religion and dialogue among all ophies and religions to be the only possible philos way towards harmony of mankind, which can guarantee tolerance, forbearance and respect for the dignity of all human beings for all religions of the world. In order to return to religion in human sees hope in the East only, because practices, IQBAL East has such ideological basis of religion that can revolutionize equality, brotherhood, respect, and compatibility among all mankind. In this article, some essential points for strategy of IQBAL’s Universal constitution will be analyzed.

IQBAL’S philosophy is the manifesto of vast human sympathy, love, brotherhood and all these human values which can be the consequence of world Govt. after uniting the human beings. IQBAL’s human sympathy and kindness which dominates all human race, sternly negates and condemns the nationalism and racialism. IQBAL is the lover of humanity along with patriot, which does not advocate any cast, colour, race, religion and nation. In the beginning, IQBAL was the strong supporter of radially he brought a revolution in patriotism but his philosophy as he turned towards the universal idea of umma in disguise of universal humanity sympathy. A critical and minute study of IQBAL’s philosophy exposes the fact that the main goal of re of humanity. IQBAL not IQBAL had been the welfa only withdraw the idea of nationalism rather declared it very inflictive and dangerous. According to IQBAL, the world is the homeland of whole human race and the cure of all human troubles and problems is human love for one.

As a universal scholar and social welfare, the message of IQBAL is not restricted rather his poetry is universal and guidance for all the human race.

The constitution of IQBAL is actually the constitution of the whole nations of the world neglecting lo language, colour and religion. It is the utmost need of the miserable humanity to analyses the reasons ordination, confrontation and -and causes of discord disturbance which imperialism. It is also necessary to use all the strategies unanimously which shou .play positive and active role in unity humanity.

The aim of all IQBAL’s meditative discussion is the establishment of the world Govt. which had been in the pipeline since last two centuries. The century was the same. The aim of imperialism of 19th century’s American and Russian The twen capitalism the establishment of UNO after world war I and II and the claim of establishing peace in the world shared the aim. Now a days, New world order of America means the universal culture of future along with IQBAL had a vivid visid strong knowledge of the past. He very correctly analyzed that the west claimed peace fakery and vague as the European philosophers and American politicians had no ideological basis of human unity national, and harmony. All the them involved in local, racial and class conflicts both mentally and practically. They preferred their own financial interests and political ideology. They totally ignored values of effaces which can unite human race into one. IQBAL truly understood the fact that the west believed in various nations so only one ideology can unite all human beings i.e., Tauheed or oneness of Allah which must result in universal civilization. It is a universal rule of nature. IQBAL has given a strategy of establishing the universal Ijtihad Fi Islam”, human race in sixth address “Al

SPIRITUAL INTERPRETATION OF UNIVERSE

IQBAL says in his first address “Knowledge and Religions Experience”:

As a universal scholar and social welfare, the message of IQBAL is not restricted rather his poetry is universal and guidance for all the human race.

eructurs laureneg dna retcarhae eht si tahW“ of the universe which we live! Is there a permanent
element in the constitution of this universe? How e occupy in it are we related to it? What place do w and what is the kind of conduct that befits the place we occupy? These questions are common to (religion, philosophy and higher poetry.” (2)

This universe is a complex phenomena. According to Suhail Umer, man is unable to ity of this complicated comprehend the real universe due to his limited abilities. He is bent upon questing about universe which makes him rustlers because his limited and restricted knowledge cannot provide him complete knowledge. The success of the whole world is to r establish rules and regulation upon oneness drive o of Allah and this ideological consciousness is the manifesto of leading life according to Allah’s law .(and order and acquaintance with Allah (3)

According to Iqbal, religion provides cts of life which are necessary guidance about fa based on reason and rational and science fails to give explanation because it depends to give explanation because it depends upon calculations. (4)

According to Iqbal, the western philosophers or have derived three arguments about Allah Divine authority i.e. universal, Hidden mysteries, (existence of benefactor etc. (5)

This universe is actually a limited reasonable substance and it needs a kind of population. A reasons is associated with another reasons and comprehend its internal human mind is unable to co meanings, that’s why man had to accept a specific reasons which is not related to another. If universe .(is limited, reasons 13 also limed or defective. (6)

The argument of hidden mysteries is about the universe. So this nature of reason or cause of the universe provides proofs of an Almighty Eternal Authority through its acts, objects, accordance and (harmony. (7)

The argument of existence which has been conceived through various philosophers, is very ng to this attractive for the masses. Accordi philosophy, Allah or Divine Authority exists in everything whether it is materialistic or abstract. (8)

As far as, Islam is concerned, the Prophet SAW) based his arguments upon rationality and ) reason. The Greek philosophy had been enjoying a ominent position is Islamic history. The religions pr which were born through Greek philosophy proved fake in comparison with the Holy Quran. Greek philosophy enhance the Muslim Scholars insight but the Greek philosophers failed to compared the (f the Quran (real meaning 0

The insight of Socrates was limited and his pupil Plato hated the knowledge comprehended through senses. On the contrary, Quran has declared the senses blessing for the man and basis (of his action (10

ed this It is reality that the Muslims ignore blessing after impressing the Greek philosophy but gradually they realized the interval meanings of Quran 13 totally different from the Greek (philosophy (11

Ghazali based religion upon doubtful philosophy and Ibne Rushed followed Aristotle as he based religion on the argument that existence is a spread and complete logical thing which is not eternal. In this way, Ibne Rushd ignored a very (ful fact (12important and meaning

In this way, the philosophers and scholars have given only materialistic explanations and .failed to explain spiritually

The Spiritual Sincerity of Person:

Since the primitive times of Islamic religion, vast and human wisdom and rational have become vivid. Conquest of nature and dominance over natural powers have made man a powerful, authentic and logical persons. New ideologies appear on the panorama and old problems are solved in the light of modern experiences which oblems. As scientific research also give birth new pr progresses, human rational and wisdom become (vast and clear (13

All these technical and mechanical progress has made man dead spiritually and morally. He has become materialistic. Iqbal says “ I want to discuss Islam philosophically so that we can the basis of (understand the read meaning of Islam.” (14

The Quran aims at creating a super and refine thinking among human beings to develop relations (which are already present in the universe (15

the powers The problem of Islam is due to which are both confronted and helpful with one another which represent religion and culture. This the very problem which Christianity faced due to lack of insight and rational of the founder of this em of religion but they themselves developed a syst would (16). Islam has great spiritual relations and ordination with the would but it sternly negates -co the idea to isolate himself after leaving the relations (with the world (17

Muhammad Asad says that the system of If controlling of Christianity which advocated se man’s natural instinct was actually degradation of humanity. All the beliefs i.e. self controlling, patience on torturing, avoid matrimonial bond which was the reason of paradise lost, and fructification of Jesus as forgiveness were the igest hurdles in way of human progress. No one b creed or dogma favour this system of ideas ladling energy and bliss for human beings (18) so, the teachings of Christianity are the mixture of reality and mysterious factual lies which creates controlled d lacks of both spiritual and material objects. wor Islam does not deny the need of materialistic world rather it gives spiritual clour and meaning of (disciplines of the world. (19
Allah has dignified man as superior to other creatures, as he accepted to be a part of the burden of creatures, as he accepted to be a part of the burden of Allah’s message. Man is not physically superior rather his spiritual aspects are so much powerful that compelled angel to bestow before man’s grandeur. According to Quran, man can drive meanings and establish a both b/w spiritual world and material world. Iqbal eagerly advocates and supports this great man who can bring about a great revolution, construct humanity and write all nations into one universal society. According to Quran, this universe and the creation of man on life are not the art of game which there regard. (20). Rather this present age needs a leader, a warrior and a soldier who can unite the whole human race because Quran is the embodiment of facts and truths and is the only source of evidence.

The philosophy of Europe could not become the part of human life due to its confrontation democracies which encouraged the rich to exploit the poor. That’s why, spiritual evolution of human .(due Europe. (26) beings faces many hurdles.

It is due to the fact that Europe is on the way of atheism and negates the need of religion which makes man mature and responsible.

According to Iqbal, there is no place for orthodox in religion because it gives birth to hich decreases human spiritual various faults w evolution (27). It is the duty of true religion to create self respect among human beings. Man needs spiritual training which can bring stationary .(changes in society (28)

Iqbal advocates the necessity of religion in area because only religion can refine modern human skills (29). Iqbal does not like the revolutionary evolution in the field of biology neglecting spiritual needs. Man is depress and frustrated and he is bent upon earning materialistic Religion is utmost need .(success in frustration (30) of human unity because religion purifies man and enhances his insight and comprehension, as man .(forgets materialistic rubbish (31)

It is demand of religion to purify the thinking and rationality and the world has to be revived ologically (32). Iqbal says that religion is not the bi name of dogma, church tradition and notions rather, it is the essence of human spiritual evolution .(33)

Through the revival of religion, Iqbal wants to Kaleem’ in man by emphasis upon -e-create Hikmat .(respect. (34)-is selfh

Phereoce which -e-Iqbal condemned Hikmat enslaves human being and spoils human beings spiritually and mentally. (35). Racial and linguistics discrimination destroyed human unity. Iqbal seriously suggests to eradicate the problems .(enslaved man and destroyed their lives (36 which

In his address Iqbal emphasis the point that religious life is based upon the fact that it gives -chance to improve their lives upon the basis of self respect which can be decisive for the future and Iqbal says that the Quran is the factor .(fate. (37) which can help in training of such leadership which can unite the whole human race because Quran is itself law and ideas also. (38). The time of this present age needs a leader, a warrior and a soldier lish a universal independent and who can estab liberate society as he would liberate man from the slavery of people. Quran carries the fate and destiny of both the east and the west. It demands the Muslim to spend the things which are more a limiters sea which them necessity. Quran 13 like has no other end and its comprehenders would get the same which they would understand. (39) Quran is the embodiment of facts and truths and is the

According to Iqbal, another thing which is helping for constructing prisons is ‘Sunnah’. Only Sunnah of the holy Prophet (SAW) is the guarantee of success. Prophet hood is the thing which absorbs all aspects and dimensions of time and life. The prophets are the manifesto of truth and reality. Science is not the future of man Iqbal say whose conscience is dead because religion and science are different apart. Both of them follow their own rules and regulations and it is the need of hour to confer both persisting appoints for the sake of humanity.

Iqbal is of the view that Islam has adopted a natural and logical attitude towards man, his unity, his existence and constant growth. According to Iqbal, reconstructing of developing relations among human beings is the need of hour. Islam united hundred years ago. Islam abolished the super power of that ear. Islam created brotherhood among the ignorant and savage Arab. Islam enlisted them with knowledge and wisdom. Europe learnt knowledge and research form the Muslim.

now a days, the Muslim became wayward from the right path and adopted the trend of Europe. Iqbal believes that Islam can still bring about revolution in the world if the Muslim should sincerely follow the teachings of Islam and the basis of religion so strengthen themselves on the scattered people must be united. It is the need of age to develop a group of the eastern nations to create relation among the whole world. It is expected that Islamic block of countries concern, because the should play vital role in this c western Imperialism gradually becomes weak. The true leadership can take the whole world towards unity and peace as Iqbal says that Islam is only benefactor which the world needs.

**FINAL CONCLUSION:**
